

RE: REGULATORY NOTICE

As stated earlier in our previous HM-206 regulatory notice, RSPA was in the process of developing clarification of issues associated with this final rule. Be advised, that this clarification has been issued, and is in the form of a final rule to HM-206 contained in the April 1, 1998 Federal Register. Attached you will find a copy of this final rule. Please note the important portions of this rule have been boxed for you.

Under this HM-206 final rule, RSPA addressed four (4) separate issues. These issues are:

- **CLARIFICATION OF ID MARKING REQUIREMENTS FOR NON-BULK PACKAGES**
- **CLARIFICATION OF ID MARKING DISPLAYED FOR DIFFERENT PIH MATERIALS IN A VEHICLE OR CONTAINER**
- **CLARIFICATION OF PLACARDING REQUIREMENTS FOR LSA RADIOACTIVE MATERIALS**
- **CLARIFICATION OF METHODS AUTHORIZED FOR MARKING TRANSPORT VEHICLES CONTAINING HAZARDOUS MATERIALS WHEN DISCONNECTED FROM THE POWER UNIT**

Be advised the last paragraph in the right hand column, on page 16072, provides notice that additional training in these areas is required under 49CFR.

If there are any questions on the above, please contact our office directly at (609) 426-0555, between the hours of 9 AM and 5 PM, Monday through Friday.
